Abstract (en)
[origin: WO2006028685A2] The present invention relates to an electric-powered, shoe care apparatus adapted for one-handed operation by a user. The shoe care apparatus is adapted to receive two removable and replaceable heads; a first head is for low-speed application of polish or cleaning material, and a second head is for high-speed polishing or buffing. In some embodiments of the invention, the two heads are driven simultaneously at these two different respective speeds. In alternate embodiments, the two heads are driven separately at these two different respective speeds.
