Abstract (en)
[origin: WO2006030095A1] The invention concerns a writing instrument comprising a body (2) extending along a central axis (X) between a front end (2a) provided with a writing tip and a rear end, said body having a grip zone and comprising at least first and second mutually assembled elements (9, 10), and a tubular grip sleeve (7) covering at least partly the grip zone. The grip sleeve (7) has a projection extending towards the central axis (X), and the first and second elements (9, 10) of the body define a housing (32) adapted to receive the projection of the sleeve, the projection being squeezed into the housing by said first and second assembled elements.
