Abstract (en)

[origin: WO2006009450A1] The invention relates to a closing device (1) for a food product container, more particularly a drink container, comprising a wall part (2) provided with an opening (3) and a shield member (4) sealing the opening. The invention also relates to a cover (70) of a food product container, more particularly a drink container, with such a closing device and to a food product container of which such a cover forms part.
