Abstract (en)

[origin: WO2006035064A2] The invention relates to a method for describing contents of a memory and for describing a transfer of contents of a memory or of a memory area of a vehicle controller, involving the following steps: describing segments of a memory area of the memory with its properties, the segments being provided in the form of physical segments and/or logical segments and/or functional segments; defining interfaces and/or methods for transferring memory contents from, out of and/or between the segments, the interfaces and/or methods describing the manner, point in time and additional boundary conditions of the transfer.
