Abstract (en)

[origin: EP1798319A1] A method for bulking a strip of textile material (11) of wool and discontinuous fibers of animal origin, cotton and fibers of vegetable origin, artificial fibers, synthetic fibers, 100% pure or in a mix, comprises, downhill of a carding, drawing and/or combing step, and upstream of a spinning step, a first heating and/or humidifying step in which the strip (11) is taken to a substantially softened state of plastic or thermoplastic deformability, and a second compression step in which a desired pressure is imparted to the strip (11) in order to determine along it the formation of a plurality of waves, crimps and/or undulations.
