Abstract (en)

[origin: WO2006029259A2] The invention relates generally shared annotation systems. More particularly, the invention provides a method for automatically navigating a document in a display having at least a first portion and a second portion, the method comprising: receiving an annotation related to the document, the annotation generated by a user at a first client; associating the annotation with a first indication in the document; receiving, from a user at a second client, an input to navigate a first portion of a display at the second client, the input causing the first indication to be displayed in the first portion of the display; and in response to the input, automatically displaying the annotation in a second portion of the display at the second client.
