Abstract (en)

[origin: EP1800850A2] The driving device has a driving motor (1, 9) and a transmission (2, 10). The driving device has no flywheel. The driving motor is an electric motor having a transmission such as a gear. The rotation axle of the gear and the rotation axle (8) of the driving motor are congruent. The driving motor is a servo actuator. An independent claim is included for a forming machine.
