Abstract (en)

[origin: EP1801525A2] A door-frame and cabinet-side front frame group for refrigerator cabinets, comprising two complementary bodies, one being a front-frame (1) and another being a door-frame (200) and both being generally conformed in a frame-shape, which are destined to be associated to an access opening of a refrigerator cabinet in order to provide the cabinet with at least a door (2), where the front-frame (1) and the door-frame (200) are constituted by first elements which are at least partly made of metal and which are clad with second elements made of an insulating material.
