Abstract (en)
The module (3) has an electromechanical interface (2) to mechanically and electrically couple to a multipurpose interface of a hearing aid. An indicator, which can be associated with the hearing aid by the interface (2), is provided. Additional electrical interfaces such as audio contacts (4) are provided, and hearing aid operating units such as on-off switch (5) and volume controls are provided. The interface (2) has a snap mechanism, screw mechanism and/or magnets.
