Abstract (en)

[origin: US2008168855A1] An adjusting device, in particular for the adjustable base of a household device, is provided and includes a threaded rod or bolt which is mounted in an adjustable housing and which can be displaced in an axial manner. The threaded rod or bolt is configured in such a manner that it can be connected to a threaded drive member which is rotationally mounted in the adjustable housing, such that the threaded bolt or rod can be directly rotated by means of the rotative movement of the threaded drive member.
