Abstract (en)
[origin: EP1804000A1] The built-in cooker has a body forming an outer hull, a heater, and a top unit. The heater is contained in the body. The top unit covers a top face of the body and is fixed to the body. The top unit includes a top plate, a holding member, and a hook. The holding member places the top plate thereon, and holds an outer peripheral part of the top plate. The hook is fixed to the holding member and is removably fixed to a side of the body. The hook includes a fixing plate extending to a vicinity of a corner portion of the holding member and being fixed to an bottom face of the holding member.
