Abstract (en)

[origin: EP1806443A1] The feeding gripper (1) has a thread clamp (4) for clamping a weft thread, and an auxiliary guiding and/or holding device (10) for guiding and/or holding the weft thread by a feeding and/or guiding element (5) and has a mass (6). The guiding and/or holding elements are guided and/or moved by the inertia force of the mass by the acceleration or deceleration of the feeding gripper. An independent claim is also included for a method for guiding and holding a weft thread in feeding gripper.
