Abstract (en)
[origin: WO2006036370A2] In one embodiment, a cleaning/lubricating system is provided that applies a lubricating material and/or a cleaning solution to a paper shredder. The cleaning/lubricating system can include a substantially flexible, generally planar envelope that contains a cleaning solution or lubricant. The planar envelope is passed through the shredder, and as the envelope is being shredded, the cleaning solution and/or lubricant is automatically delivered to the shredding mechanism in the shredder.
