Abstract (en)

[origin: EP1808271A2] A coded security tool especially for operating on a security bolt which secures a cover onto a wheel trim, has a shaft fitted with a hand grip (20) at one end and with a cylindrical socket (22) at the other end. The socket fits over a raised profile head of the bolt and has a number of studs (28) in a coaxial ring to locate into a corresponding pattern of blind holes in the bolt. The fitting includes tapering profiles to self align the tool onto the bolt.
