Abstract (en)

[origin: EP1808555A2] An anchorage unit for posts comprises a long concrete body (2) of rectangular cross-section with a pointed end (3) to fix into the ground and a means of fixing the post. There are stiffening elements (6) in the edge regions of the concrete body in the long direction. Preferably there are additional stiffening elements (6') across the long direction joined to those in the long direction.
