Abstract (en)

[origin: WO2006023896A2] A system and method for receiving a request to initiate console based video game play in which the automated session is based upon a specified period of time related to a cash or credit based purchase, providing for activation of a player specific gaming location, and/or gaming control device, and for later deactivation of player location, and/or gaming control device after expiration of purchased time. Also presented is a system to support a plurality of video display devices, audio and video management, distribution and control devices, plurality of console devices, management/control hardware and software, video game participant control devices.
