Abstract (en)

[origin: US2009001157A1] The present invention concerns a method and an apparatus for processing bank notes. Therein, for the processing of bank notes, the invention starts out from singling the bank notes, transporting the singled bank notes through a sensor device to several output units, checking the bank notes by the evaluation of data as well as determining and storing serial numbers of the bank notes, subsequent to which the bank notes are transported to the output units depending on the result of the checking, wherein in the determination of the serial numbers of the bank notes a unique serial number is established for each bank note.
