Abstract (en)
[origin: EP1811101A2] The storm clamp has two connecting parts to connect two plates. The latch and a longitudinal shifting guide for third plate (4) and a hook and a transverse guide for second plate (3) is made. The sheet metal section has first surface (5) as attachment surface and second surface (6) which is bent at 45[deg]. The first surface is parallel to third surface (7) and second surface lies between first and third surface. An independent claim is also included for a suitable roof with storm clamp.
