Abstract (en)
There is described a LED lighting device (1) for compartments (N) having a movable closing member (P, C), the device (1) having at least one lighting module (2) having one or more LEDs (21); at least one battery (3) for powering the lighting module (2); and a switch (4) connected electrically to the battery (3) and the lighting module (2). The switch (4) advantageously switches as a function of the position of the closing member (P, C), with no direct contact with the closing member (P, C).
