Abstract (en)

A guide groove element for the anchorage of a screen curtain, preferably placed vertically on the outer side of a building, carried out of a housing, in which a guide groove (2) is carried out with a centre line (X) coinciding with the direction of gravitation, whereat the guide groove (2) ends in the shape of an inverted heart-like groove (3), whereat the outer wall of the heart-like groove (3) is formed by the housing of the element and the inside wall of the heart-like groove (3) is formed by a central element (4), whereat the central element (4) comprises a movable leg (41) that forms an obtuse angle with the centre line (X) of the guide groove (2), a fixed leg (42) running parallelly to the centre line (X) of the guide groove (2), and a recess (43) disposed opposite to a heart-shaped bulge (8) formed on an inner surface of the outer wall of the heart-like groove (3).
