Abstract (en)

[origin: WO2006056801A1] A composition of an isotonic or hypertonic formulation or a powder for the preparation thereof is described comprising an active ingredient which is effective in blocking harmful bacteria and is selected from extracts of plant or animal origin and/ or derivatives thereof comprising a combination of polysaccharides comprising 60-100 % of D-mannose, 40-0 % of D-glucose and 0-10 % of other monosaccharides. An active ingredient which is effective in blocking harmful bacteria for use in a spray composition or douche so as to drench the surface tissue of a recipient; use of a composition in blocking adhesion of harmful bacteria to host tissues; and use of a composition in the manufacture of a medicament with this effect are also described.
