Abstract (en)

[origin: WO2006005996A1] Metering device for feeding loose granular substances in a vertical packaging machine, characterised in that the granular product (1) is gravity fed through a specially shaped channel (2) inserted inside the forming tube (3) of a vertical packaging machine (4) and its flow is cut off by a revolving diaphragm (5) which determines the quantity of product to be introduced into the resulting package (6).
