Abstract (en)
[origin: WO2006015558A1] Plastic card with magnetic information carrier comprising mechanically movable elements (2) in a number equal to a number of required secret digits (PIN). The movable elements (2) are formed by flat circular disc axially pivoted in circular recesses (1.2) placed at least 0,1 mm from the edge of card (1) and interfering at least to two thirds of the magnetic carrier stripe (1.1) latitude. The upper surfaces (2.2) of the elements (2) are covered with figures or symbols (2.3) designating the set position of magnetic carrier on the lower surface (2.1) of the elements (2). Said figures or symbols beeing visible through small gaps (1.5) made in the circular recess (1.2).
