Abstract (en)

[origin: WO2006059887A2] A method and apparatus for managing data files of a local storage is disclosed. The method for managing data files of a local storage includes the steps of: a) downloading at least one data file from a content provider, storing the downloaded data file in the local storage, and forming a binding unit using the stored file; and b) upon receiving a command for deleting a specific file contained in the binding unit, deleting all files contained in the binding unit, deleting all files associated with a title including a specific file to be deleted, or deleting only the specific file to be deleted.
