Abstract (en)  
[origin: EP1818962A2] The switch (22) has a lever drive (10) with an operating lever (12), a contact lever (16) and an intermediate lever (14) connected with the operating lever in a movable manner. The contact lever closes an electrical contact in an ON-position and opens the electrical contact in an OFF-position. The operating lever and the intermediate lever take an elongated or over-extended position in a position of the lever drive.
