Abstract (en)

[origin: EP1818963A1] The fuse rail has a terminal block (10,11,12) per pin on a side of the housing (1) in each case. An outlet contact is contained in each terminal block for screw less attaching of outgoing feeder. Each outlet contact is provided over the respective fuse element of an electric circuit to the associated contact element for contacting of a bus bar. Each terminal block has a guidance (18,19,20) for inserting outgoing feeder.
