Abstract (en)
[origin: US2008030114A1] A support arrangement for receiving refrigeratable products in a refrigerator comprising at least one vertical guiding groove, a plurality of vertically arranged staggered steps, a horizontal support provided with a peg engaged into the guiding groove and a step which is engageable into the vertically arranged staggered step or disengageable therefrom by pivoting the support about an axis defined by the peg. The vertically arranged staggered steps are placed outside of the guiding groove which is provided with continuous sidewalls.
