Abstract (en)

[origin: WO2006062356A1] Provided is a method of controlling a multiple input multiple output (MIMO) system. One embodiment of the method includes the steps of: estimating, at a receiver, a MIMO channel and detecting data streams using a successive interference cancellation scheme; calculating, at the receiver, S and P using the estimated channel and then feeding back information corresponding to $(P_{₁}, P_{₂}, \dots, P_{_{M-1}}, \text{SINR}_{⁵})$
