Abstract (en)

[origin: EP1820740A1] A box formed from a single cardboard sheet and having a closure panel (10) from which there projects a lip (18) insertable into the box interior between the box front panel (3) and the edges adjacent thereto of two flaps (11,12) projecting from the box side panels (2,4). The lip is separated from the closure panel by a folding line (19), at each end of which a cut (20) is provided into which a flexible appendix (23) projecting from each flap (11,12) is inserted, with the free end of the flap making contact with the inner surface of the front panel in the box when closed.
