Abstract (en)

A tent clip (10,110,210,310,410) for connection between a fly sheet (48), tent pole (42) and guy line (44). The clip includes a connector (20) to the flysheet, a hook (25) to snap fit to the pole and a further connector (38) to the guy line. The connectors and hook are arranged in-line so that, in use, tension applied to the guy line is transmitted to the flysheet and the pole to balance loading while the pole is prevented from being released from the clip. A tent (40) and a method of pitching a tent using the tent clip are also described.
