Abstract (en)  
[origin: EP1826740A1] The present invention relates to a mounting system for a panel provided for easily and thoroughly attaching a panel (P) having an advertising information printed thereon to the sides of road vehicles or fixed sides to facilitate a better arrangement and a proper tensioning of the panel (P). The mounting system for a panel has a frame comprising a first profile (2) including an elongated first bead retaining portion (10) for receiving a first bead (B) extending along a first lateral side of said panel (P). The frame further comprises at least a second profile (18) for receiving an elongated retainer (32). The elongated retainer (32) includes an elongated second bead retaining portion (38 - 44) for receiving a second bead (C) extending along at least a second lateral side of the panel (P) for tensioning the panel (P) when thoroughly mounting the elongated retainer (32) to the frame.
