Abstract (en)

[origin: EP1826792A1] The chamber (1) comprises contact arrangement (2), two arcing contacts (3,4) mobile along an axle (5), an insulating nozzle (6), an insulating secondary nozzle (11), a heating volume (7) and a heating channel (10). A section (12) of the heating channel flowing into the heating volume is bent inward against the axle. The angle of inclination ( $\alpha$ ) lies between 10 degrees and 30 degrees. An independent claim is also included for the high voltage switch.
