Abstract (en)
[origin: WO2006054887A1] Carrier (1) for products (10), such as dough products or bakery products, comprising supporting surface parts (3, 5) for supporting the food products (10) according to a supporting surface (A), wherein at least a portion of the supporting surface parts (4) is movable in upward direction (b) out of the supporting surface (A) in order to release the products (10). The said portion of the supporting surface parts (4) is spring loaded to a position in one plane or in line with the supporting surface (A) and connected to the carrier (1) in a hinging or bendable manner.
