Abstract (en)

Non-refillable stopper for bottles of spirits and the like. The invention relates to a non-refillable cap for bottles containing alcohol and similar. The inventive cap is characterised in that the base of the washer, next to the upper face of the neck of the bottle, comprises a considerably-reinforced zone having an outer conical shape, in which the conical shape of the body of the cap can be pressure fitted such that the cap can be fixed in a secure resistant manner simply by means of axial insertion.
