Abstract (en)

[origin: WO2006061592A2] There are provided panels (201) for barriers (203). A panel (201) comprises guard means extending between first and second side edges of the panel (201) and mounting means for connecting the panel (201) to first and second posts. In one embodiment a panel (201) comprises one or more kick plates (229) forming a lower, in use, part of the panel (201) and which are moveable relative to the remainder of the panel (201). Also provided are barriers (203), barrier assemblies, connectors (50) methods of erecting barriers and methods of forming floors.
