Abstract (en)

[origin: EP1832644A1] Provided is a coke pushing method and a coke pusher machine, which surely decrease the pushing load to decrease the damages of coke oven walls on pushing out the lump coke from the carbonization chamber of coke oven. Specifically, the pushing face 22b of the ram head 22 against the lump coke 11 is vibrated by the vibrator 23 in the pushing direction, thereby conducting the pushing operation while applying vibration to the lump coke 11
