Abstract (en)
A tool for laying floors, for gripping window or door glass panes, for removing residual concrete, plaster or glue, and for removing previously laid floors, comprises a prism-shaped hollow body (1), a first stop (2), a second stop (3), a weight, means enabling the movement of the weight, a hitting element (6), a cap (7) and plates (8) made of an anti-scratch material; the stops (2,3) are placed at both ends of the hollow body (1); the hitting element (6) is fixed with screws (13) to the second stop (3); the means enabling the movement of the weight are placed between the two stops (2,3); the weight is shifted manually thanks to a handle (10) fixed to the weight; the quick movement of the weight and the collision against the first stop (2) causes the shifting of the tool and the component part of the floor or the section (16) gripping window or door glass placed against the hitting element (6); underneath the base of the body (1) leaning on the floor, plates made of an anti-scratch material (8) are fixed.
