Abstract (en)
[origin: US8123869B2] A dishwasher comprising a washing container, devices for washing dishes by means of rinsing liquor, and a sorption drying device which is connected in an air-conducting manner to the washing container via an outlet of the washing container and an inlet of the washing container. The sorption drying device is provided with a sorption column encompassing reversibly dehydratable material. The outlet and the inlet of the washing container are connected to the sorption drying device without mounting an air duct therebetween.
