Abstract (en)

[origin: EP1834770A2] The satellite printer unit has several printing mechanisms (11), each with a forme cylinder (12), a transfer cylinder (13), an ink mechanism and possibly a moisture mechanism, and at least one impression cylinder (14). It has at least one application roller (16) or contactless application device for applying a medium to the or each impression cylinder that prevents the formation of deposits on the impression cylinder(s).
