Abstract (en)

The angle member (2) comprises first (4) and second (6) substantially perpendicular limbs having cutting indicators or pre-cuts (1) which make it possible to cut the angle member (2) to the desired length. The angle member (2) is preferably made of plastics material and may have either a symmetric configuration, in which the two limbs (4, 6) have the same width, or an asymmetric configuration, in which the two limbs (4, 6) have different widths.
