Abstract (en)

A light projector for dynamically changing the apparent shape of moving subjects, comprising a light source (LA1, LF1, LF2) for lighting moving subjects. The particularity of the invention resides in that it comprises, between the light source (LA1, LF1, LF2) and the subjects, variation means (R2, DF1, SP1, TS1) for varying the space lit by each flash of light emitted toward the subjects with respect to the preceding flash of emitted light.
