Abstract (en)
[origin: WO2006069832A1] The invention relates to a household appliance, in particular to a dishwasher comprising a door (1), a control unit (6) for controlling the household appliance and a operation display device (9) for displaying at least one operation state of said household appliance. For this purpose, said operation display device (9) is provided with a large surface and displays the following operation states: operation , end of program and stop , respectively, on the entire surface thereof.
