Abstract (en)
[origin: WO2006078449A2] A torque transducer assembly includes a first shell having a threaded neck and a distal end. A second shell is also provided. A sensor module includes a first frame member, a second frame member, and a sensor. The first frame member is attached to the first shell and the second frame member is attached to the second shell such that the first and second shells are coupled to one another. A method of manufacturing a torque transducer assembly is also provided. A packaging system including a torque transducer assembly is additionally provided.
