Abstract (en)  
[origin: WO2006068467A1] The present invention relates to a composition for suppressing dust formation, at least comprising a first foam-forming anionic surfactant, an amphoteric surfactant, a second anionic surfactant and water. With the composition according to the present invention more dust can be bound with less water. A prolonged dust-suppressing effect is moreover ensured. In addition, the composition according to the invention is fully biodegradable and not harmful to people or the environment.
