Abstract (en)  
[origin: WO2006075922A1] An insulation glass (1) with an inner blind or plissé curtain (5) is described, where the insulation glass is provided with a spacer element or spacer (3) where the spacer may comprise a protruding part (4) shaped as a rail or wing, and where the inner protrusion or wing (4) is provided with a sliding element (7) and/or where at least one of the inner side areas of the insulation glass (1) facing the blind or plissé curtain (5) is provided with a sliding and/or sound absorbing element (9). The purpose of the sliding element is to prevent the curtain from scratching or making noise.
