Abstract (en)
A container (10), in particular a box of the type with collapsible walls, comprises a bottom wall (12) and a plurality of side walls (14, 16, 18) mounted on the bottom wall (12) and movable between an erect, containment position and a folded, rest position. The container comprises at least one end side wall (14) which, when in the erect position, can be moved from an engaged containment position to a disengaged position in which it can be moved to the folded position.
