Abstract (en)

[origin: EP1840077A2] The unit has a contact (10) for the connection at a battery and a fuse (14), a main contactor (16) is provided for current feed to a driving motor, a pin-and-socket connector (30) for the connection of a control for the current supply, and high current connections for the connection of the consumers. A single support is provided in the housing of the drive components of the ground conveyor. All the components are pre-mounted in hinged manner in or at the housing.
