Abstract (en)  
Use of carbohydrates as additive to stabilize the viscosity of calcium and/or magnesium milk of lime suspensions, where the carbohydrates are monosaccharides, disaccharides, oligosaccharides or their derivatives obtained by oxidation or by hydrogenation. An independent claim is included for preparing suspensions calcium and/or magnesium milk of lime with a stable viscosity, comprising adding carbohydrates such as monosaccharides, disaccharides, oligosaccharides or their derivatives obtained by oxidation/hydrogenation.

Abstract (fr)  
Des glucides sont utilisés comme additif pour stabiliser la viscosité des suspensions de lait de chaux calcique, de chaux magnésienne ou leurs mélanges. Ces glucides sont choisis parmi les monosaccharides, disaccharides, oligosaccharides, polysaccharides ou leurs dérivés.
