Abstract (en)  
The invention relates to a composition for rinsing and drying vehicles comprising at least one addition salt of an ester amine with formula (1) wherein m and n independently of each other are 0 or a whole number between 1 and 10, R is an alkyl or alkenyl group having 6 to 22 linear or branched, saturated or unsaturated carbon atoms, R 1 is hydrogen or a -CO-R group, R 2 is an alkylene group having 1 to 4 carbon atoms, R 3 is hydrogen or an alkyl group having 1 to 4 carbon atoms, R 4 is hydrogen or an alkyl group having 1 to 4 carbon atoms or a group wherein R 1 , R 2 and R 3 have the aforementioned meaning and p is 0 or a whole number between 1 and 10, with at least one organic or inorganic acid. Said composition makes it possible to rinse previously washed vehicles, enabling the fast and effective removal of water and particles left on the surface of the vehicles during the washing process, as well as providing adequate shine.
