Abstract (en)
[origin: DE202006010107U1] The apparatus has a cooling and/or freezing compartment for receiving the cooling and/or freezing goods especially for receiving the wild, as well as a holder (20). The cooling goods are directly or indirectly attached to the holder, which is extracted and inserted into the compartment. The holder has multiple fixing positions, is designed as push rod or a push rod in particular has a grid. A movable pull out rail is provided and accommodated in a guide. The pull out rail are rolling or running in ball bearing spindle which has rest positions, where a holder is fastened.
